

## FARM ANIMALS CREATE DISASTER by Lilly Rose

A picture of these FLYING PIGS LANDING ON THE ROOF OF MILLIE HEWIT!!!!

Last Tuesday there was a flock of flying cows. Now this Tuesday a flock of flying pigs rank top in the charts. There have been thousands of these pigs making destruction and people are not happy. They have been said to originate from Mr L. Laurent (58) of St. Laurent Farm in Stibbard. There have been over ten complaints since last night. This has been happening in Stibbard town for weeks now! But the main questions being asked are... **WHAT** are they trying to accomplish? **DO** they really have wings? **HOW** do they have wings? **DOES** Mr L. Laurent know about the pigs getting out and about?

During our interview with some of the victims, Mrs P. Jones (45) of Stibbard All Saints has been having very emotional thoughts about the incident as one child Lilly Rose (10) was taken swiftly away by these animals. Mrs P. Jones has said "I am very sad as one of my favourite students was whisked away by this haul of pigs and well, they also took two other students who I believe were very close to Lily Rose."

She continued on to say, "Their names were Lilly Cooper (10) and Beatrice Longwill (10). They were whisked away and the school misses them oh so much!"

If you happen to see these flying freaks make sure to call our incident line 0772391034.
